

Natural

Upriser-HI-Growth

FULL OF NATURAL PLANT NUTRIENTS

ORGANIC MANURE

FOR FLOWERS, FRUITS, VEGETABLES
AND EVERY TYPE OF CROPS

Upriser-HI-Growth

It is well known that continuous use of chemical fertilisers & micro-nutrients (Zinc-sulphate etc) has started causing damage to land and the crop is not available as it should had been. Moreover, the slow poison of chemical fertiliser cause adverse effects on all plants, animals & human-body. The chemically grown fruits & vegetables are comparatively much inferior in taste & quality. This is why the naturally grown fruits & vegetables fetch much higher price.

Upriser-HI-Growth is a natural plant nutrients-rich organic manure which can get rid of the chemical addition of the land and provide higher yield & quality crops by enriching the fertility of the soil.

Upriser-HI-Growth contains important plant nutrients like Nitrogen, Phosphorus, Potash and also micro-nutrients Zinc, Iron, Manganese, Copper etc, in natural form. It also contains natural insecticides which protect plants from insects & diseases.

Upriser-HI-Growth is very convenient to use. It is just to be mixed in soil in such a manner that it is available to the roots of plant. There is no risk of its damage in air & water like chemical fertilisers. It provides constantly the nutrients to the roots of the plant. Its water holding capacity also maintains moisture in the soil.

Upriser-HI-Growth is totally pollution free & safe and does not cause any harm to plant like chemical fertilisers. Government has also kept the natural fertilisers free from taxes & licenses.
